Learning Power Point for Worship- Thursday, November 4

Learning how to use Power Point can be a challenge for many. This workshop will look at the basics of Power Point, plus additional resources that will help with worship development. This includes websites, software and hardware that your church may want to acquire. Laptop computers will be available. If you would like to bring your own, you are welcome to do so.

Mr. Nate Smith will be the resource leader for the day. Nate is the owner of NES Technologies LLC of Hanover. This is the company that handles all of the Conference IT services, including phone, internet, and website.

Nate has worked with the Conference for over ten years and worked with several local churches in developing media PCs to use with their worship services.
